Everyone here in attendance is high quality; everyone I have talked to is either a decision maker or knows what they are talking about in terms of what they need.

CLOUDERA

Sales Director

The attendance has been excellent, not only do you get people who understand business issues but also the technology side. The organisation has been really good, the communication has been excellent, so from our stand-point we will be looking at Whitehall Media events in future.

It is important that we pick the right events; we have to find events that will have to give us the most ROI. We've developed a lot of leads, all of those very high calibre. We thought it was a very good use of our budget.

There's been a lot of good customers, [we spoke to] people that didn't know our name which is the reason why you do come along to these events, so that people do get to know us.

INTERROUTE

Director of Cloud Sales & Marketing

It's been very good working with Whitehall Media, they're very professional, always available to help us out with any issues we might have.

Excellent event, the quality has been right up there in terms of decision makers and the people we want to be talking to. Having the right people in the room has been very positive. The show itself has been run very smoothly and we've been talking to decision makers.

HITACHI ID

I have to say the quality of the delegates is absolutely outstanding. This has got to be one of the best events that we have ever attended. The right kind of people are here, for the right reasons and for that, I'll definitely look at attending another Whitehall Media event soon. It's been a good event, one of the things that I like about the Whitehall Media events is that the attendees are interested in the exhibition and that works very well for us. Looking back over the years, this is one of the best we've been to.
